Man Making Statement to Birmingham Person Is White and Declares He Was Given Money to Leave Atlanta and Keep His Knowledge of the Crime to Himself.

A man who claims to have complete knowledge of the murder of Mary Phagan is now in the hands of the Atlanta police authori-ties, according to a startling story which reached the city at mid-night last night.

This man, whose name is said to be Fisk, an Atlantan, positively declares, according to the story, that Leo M. Frank had no part in the murder of Mary Phagan. He further declares that the crine was committed by another Atlanta business man equally as prominent as Frank. This man, it is further declared, will be

as promment as Frank. This man, it is further declared, will be arrested to day.

According to his story, this man declares he long withheld his knowledge of the affair in the belief that Frank would not be convicted. He declared further that he had been paid a sum of money to leave Atlanta and hold his tongue. However, he says he could withhold his information no longer, and consequently he went to Chief of Police Bodeker of Birmingham and told that official the

The conference was in strict secreey, and no hint of what was revealed was allowed to eacape. It is said, however, that the new witness made a full statement and agreed to go to Atlanta and

take the witness stand.

According to the reports from Birmingham, he is either now in Atlanta, held under strict secrecy, or is on his way to

# A Notable Array of Women's Quality Suits At Frohsin's

I N WEBSTER'S DICTIONARY, the word "NOTABLE" is defined as "WORTHY OF NOTE OR NOTED IN as "WORTHY OF NOTE OR NOTICE" — as "REMARK-ABLE." The definition fits the description of our Women's Suits—perfectly. They are "worthy of note" from a viewpoint of QUALITY and STYLE—they are "remarkable" in PRICE!

It matters not what the price—be it a \$12.75 or a \$200.00 Suit—for that's the scope at this shop—you are assured of ABSOLUTE worth— of REAL quality in the workmanship and in the fabric.

Our prices are ESPECIALLY remarkable—because they are always LOWER than at other good stores—comparing QUALITY with QUALITY. That's because of our firmly established methods of merchandising on a small basis of profit. Take, for instance, the new arrivals in Tailored Suits at \$19.75 and \$24.75—compare them with values elsewhere—and you'll REALIZE our REMARKABLE values.

As to ALTERATIONS, we make no extra charge—we make them FRBE! That's because we are DETERMINED that no garments leave THIS shop—unless they FIT—fit PERFECTLY. We employ only thoroughly EXPERIENCED Men and Women Fitters.

I feel personally the shame and diagrace brought upon this country by the action of the Government. It makes one almost ashamed to be an American—to be of a people whose proudest boast is their liberty, and yet whose officials seek to deprive a woman, intelligent and able, of that liberty. And these lots will sell faster than any lots ever sold before in Atlanta. The interest in the property is intense. Every dollar invested in Carey Park should double itself every week in the year.

W ILL you act? Will you accept the opportunity that is before you? If you can not visit carey Park, be on hand at the termania Savings Bank early Monday morning and select one or more of the lots from the blueprint. Our Sales Manager knows every foot of this property, and will satisfy you with his own judgment as to location.

THE phenomenal interest in Carey Park is a compliment to good judgment.

For sixteen years the original MONCRIEF FURNACE has been manufactured in the city of Atlanta, sold in the city of Atlanta, as elsewhere, and for an equal number of years every ORIGINAL MONCRIEF has been giving satisfactory service.

For sixteen years Atlanta workmen have been making the original MONCRIEF FURNACES, and for just that long have been spending their hard-earned dollars regularly every week—spending them in the city of Atlanta.

The people of Atlanta have shown their appreciation of the strictly high grade furnace which we manufacture, and of the part we have played and are playing in the building of this great city. They have shown their appreciation in a substantial way—during the sixteen years that we have been in business here Atlantans have bought

H OSTS of fashionwise women have long ago found that "when it comes from the Southern Suit & Skirt Company," it MUST be authentic—that the current modes are interpreted here with absolute accuracy and that every garment coming from this store is easily distinguishable by its unmistakable air of distinction and individuality.

THIS store enjoys the unusual and minigue advantage of having a New York connection, composed of twenty-one of the largest who are directly interested as partners in this business, giving a combined purchasing power so much greater than the average store, that it requires no sacrifice of legitimate profit to offer the GREATER VALUES that this store is noted for. Come in to-morrow and you'll be delightfully surprised at the beautiful garments you can purchase with a very small outlay.

# Visit Carey Park To-day

Lots on Sale To-morrow at the Germania Savings Bank at \$1.00 Down and \$1.00 a Week

TAKE the river electric car line and get off at Carey Park, Our sales emissil be on the grounds all day Sinday to show you Carey Park lots. You can walk to any lot in the park from the street car line in five minutes. Five-cent car fare to Carey Park, or from Carey Park to any point in Atlanta. Carry your friends along with you. Our manager will also be on the grounds all day Sunday and will reimburse you car fare for yourself and friends.

GAREY PARK lots—50x140
feet, facing wide avenues
and with 20-foot alleys in the
rear, will go on the market Monday morning. Ortober 20th, at 9
o'clock, at the Germania Savings
Bank, Xo. 2 Whitchall street, on
the Whitchall side of the Peachtree viaduct. The opening price
for the first fifty lots, any choice
from the plat, which means first
choice, will be only \$200 each,
which is below the market, and
absolutely assures quick and
handsome profits. The opening
terms only one dollar down and
one dollar a week, until paid for,
without interest.

CAREY PARK is the center of more street car and road development than any other suburb around Atlanta, and this absolutely assures enhanced values. For instance, a street care extension is to be built out the Mason and Turner road, which will give Carey Park another electric are line, approaching on the south. The County Commissioners have agreed to pave the Peyton road directly through

Carey Park. Also the Commissioners have agreed to grade the Hollywood and Gary roads, in the east end of Carey Park. In the meantime our own grading crew is at work on streets, grades, and other developments in Carey Park, making every lot easily and conveniently accessible.

CAREY PARK is owned in fee-simple by Mr. John Carry and his son, Hon, Dan Carey, who will execute all contracts for deed, and all collections are to be made through the Germania Savings Bank.

FOR the investment of surplus savings, either for the purpose of accumulating a home site, or for the purpose of reaping the reward of growing land values, there is no better opportunity around Atlanta to-day than Carey Park. And these loss will self faster than any lots ever sold before in Atlanta. The interest in the property is intense. Every dollar invested in Carey Park should double itself every week in the year.

W. H.L. you act? Will you accept the opportunity that is before you? If you can not visit Carey Park, be on hand at the Giern mia Savings Bank early Montay morning and select one or more of the lots from the blue-print. Our Sales Manager knows every foot of this property, and will satisfy you with his own judgment as to location.

The phenomenal interest in Carey Park is a commitment.

# "By George--There's Exactly The Shoe for Me!"

The shoes shown in our window frequently bring forth just such a remark, which culminates in an easy and satisfactory sale.

The cut shown here is made from a photograph of a shoe that we are selling at \$5.00; and our knowledge and experience warrant us in saying that this nor any other public has ever been offered a shoe of greater intrinsic worth---GREATER INTRINSIC WORTH AT THIS PRICE! Just drop that in the pocket of your mind and munch on it at your leisure. Put your feet in a pair of these shoes at your will and your later knowledge and experience will parallel ours.

This shoe is a member of a royal family here: The members at a lower price, viz., \$3.50, \$4.00 and \$4.50, are supreme in their class; while those at

\$6.00, \$6.50, \$7.00 and up to \$10.00 carry every ounce of value and style that human skill can transfer to leather.

When you think of shoes, think of MUSE: Tie the two ideas up together; give your "pedals" their best chance, and walk ever after in ease and comfort, and with the consciousness of being sure-shod.

For sixteen years the original MONCRIEF FURNACE or sixteen years the original MUNCKLEF FURNACE
as been manufactured in the city of Atlanta, sold in the city
of Atlanta, as elsewhere, and for an equal number of years
every ORIGINAL MONCRIEF has been giving satisfactory

service. For sixteen years Atlanta workmen have been making the original MONORIEF FURNACES, and for just that long have been spending their hard-earned dollars regularly every week—spending them in the city of Atlanta.

The people of Atlanta have shown their appreciation of the strictly high-grade furnace which we manufacture, and of the part we have played and are playing in the building of this great city. They have shown their appreciation in a substantial way—during the sixteen years that we have been in business here Atlantans have bought

AND THEY HAVE BOUGHT THEM FROM US.

paper or any mob. But IT IS FELT, and, while it is often insulted and defied, it rules in the long run.

From time to time public opinion takes definite, crystallized form and shape in laws, religion, moral doctrines, proverbs, fables, et cetera.

The Ten Commandments are an expression of public opinion crystallized. Public opinion does not mean unself-ishness or wisdom, always. It means smaully that which is convenient at the time and in the place.

Public opinion in convenient at the time and in the place.

Public opinion in this place, which is a subject of the provided in the place. It was a worse crime for a woman to get into a worse crime for a woman to get into a was convenient, as it kept women from vanning away from one island to another, which would have been sad for his place in the provided in the place of th

Public opinion is the expression of the wisdom of the people as a whole—and that is the greatest wisdom. But the wisdom that finds expression in public opinion is modified by conditions, by the selfish interest of the mass, and too often by the passions of the mob. It must be remembered that a mob of human beings does not express the pub-

lic opinion of intellect, but the hatred of

lic opinioh of intellect, but the hatred of passion.

The mob is in reality a hunting pack; it is a going back of human beings to the savage state of hatred and destruction.

This fact has been admirably emphasized by the late Professor Shaler, of Harvard.

Public opinion, as we have said, finds formal, definite, crystallized expression in certain laws; for instance, the laws that protect property and sanctify mariage, thus protecting women and children; the laws that prevent the use of poison in warfare and of torture in judicial investigation.

All law, all rules to which human beings submit, are simply public opinion. Nothing is harder to break when outgrown than public opinion that has taken the form of law and tradition.

Only public opinion that fis is strong enough to destroy and break down the barriers that public opinion has created.

No man can be said to represent or to

No man can be said to represent or to be the spokesman of public opinion. But a man may, TEMPORARILY, become PUBLIC OPINION ITSELF, when the public in an emergency decrees that HIS opinion is wisdom.

Abraham Lincoln was public opinion in this country for awhile, luckily for the country.

Public opinion can give to a man a power that nothing can resist.

Yet, no man's power is great enough to control or defy public opinion when that opinion changes.

It was public opinion, not love of the republic, that kept Caesar from accepting the crown.

It was public opinion, not the will one conscience or any one man, that limited our Presidential office to two terms.

George Washington was our wisest

man, undoubtedly, in his day, and certainly the man to whom this country owes most.

Yet without the pressure of public opinion Washington's fame might have been spoiled, the growth of the country checked and chanzed. For without the expression of public opinion Washington might well have considered it his duty to the country to remain in power indefinitely.

The strongest individual that ever lost a battle, mental or physical. But it was not the power stored away in his round head that gave him his power. It was public opinion, that had had enough of the reign of Charles and the debauchery, ignorance and misery that went with it.

Newspapers represent public opinion only in as much AS THEY EXPRESS PUBLIC OPINION HONESTLY AND ACCURATELY. A newspaper has the power of SUGGESTION. It has many readers, and can put the same thought into many minds at the same time. And that is a great power.

But a newspaper has many readers only because it expresses the feeling and THE OPINION of many citizens.

A newspaper's power is not a menace, even when it falls into vicious or misguided hands. For the most powerful mewspaper is as perishable as a mushroom. A man can change his paper as quickly as he can change his mind. A newspaper is not really a directing force as much as it is a mirror, reflecting the interest, purposes and opinion of the bigger or smaller part of the community. True, as the friend who writes us say, public opinion has "burned people at the stake for witcheraft, thrown the greatest of men into dungeons, on the one hand, and on the other it has struck, the most

powerful blows for liberty, equality and justice."

Public opinion is simply the expression of the thought of collective man AT THE TIME.

When men believe in witches, public opinion forms the mob and burns the miserable victim. When men believe that the earth is square, that a few stars were put in the sky as an after thought, and that the sun goes around the earth, public opinion endorses the power which forces Galileo on his knees to recant his wonderful TRUTH.

Public opinion of course can be no wiser than the wisdom of the day, no more kind than the kindness of the day, no more kind than the kindness of the day, and the start of the start of

Some of these ignorant persons vue for it, because some friend in whom they have confidence tells them to do will reap patronage or other personal benefit from or through it; others, because some mewspaper appeas either to their intelligence or prejudices.

The shoes shown in our window frequently bring forth just such a remark, which culminates in an easy and satisfactory sale.

The cut shown here is made from a photograph of a shoe that we are selling at \$5.00; and our knowledge and experience warrant us in saying that this nor any other public has ever been offered a shoe of greater intrinsic worth----GREATER INTRINSIC WORTH----at this price! This shoe is a member of a royal family here. The members at a lower price, viz., \$3.50, \$4,00 and \$4.50, carry every ounce of value and style that human skill can transfer to leather; while those at \$6.00, \$6.50, \$7.00 and up to \$10.00 are supreme in their class.

A Stylish Shoe A Comfortable Shoe A Serviceable Shoe Which Do You Value Most?

giving style with the two latter necessary attribute

Some stores try to see how cheap they can sell shoes.

At Allen's it is considered essential to give comfortable shoes as as serviceable shoes, but we also consider it possible to combine the sm est style with the best wearing and fitting quality.

If the shoes sold you here are not fitted properly and do not wear sat-isfactorily, the trade is not finally consummated; come back and talk it over with as and you will find that we don't any more object to rating back than are object to taking the money in the first place.

In fact, some of the best customers on our books make he doing more for them than they thought we should.

Some one in the hurry of our regular house-cleaning shor sale, possibly a new clerk, sold her a pair of shoes that did not fit he;

The shoes are absolutely worthless to us, as you can imagine, gave her 50 per cent allowance on them. She would not allow us to more, although we offered to, and that is the way we sell shoes here.

The materials are lovely: Canton crepes, crepes de chine, novelty silk crepes and charmeuse—and of the very best quality. Every color, too, that one could wish: Smartest terra cotta, wine, brown, tanne, mauve, tan, russet, mahogany, green, blues, almost every sladed, and black.

Too many styles to tell you of all—nearly every one is different.
They are graeefully draped, have high girdles, or artistic sash, chemisettes of net or chiffon, some with fancy vest? But—
We simply invite you to see them—they are far more convincing than all we may say about them.
